14 MAR 2007

Dear Osmond Borthwick

Orcon intends to launch fixed-line telephone (voice) services in Auckland and Wellington in May 2007. Orcon voice services are delivered via the Orcon PSTN, to which numbers have been allocated under the terms of the Number Administration Deed, of which Orcon is a member.

Services that Orcon intend to deliver include:

- a) Access to the PSTN via a POTS handset and a digital voice gateway, or via a native digital handset.
- b) A local (currently Auckland or Wellington) phone number on the PSTN.
- c) Various calling services.

Orcon seeks access to number portability services in relation to the above services.

Sincerely,

A handwritten signature in dark ink, appearing to read "Scott Bartlett", with a stylized flourish at the end.

Scott Bartlett
