Dear Scott

Telecom Broadband Promotions and Separation

Thank you for your letter of 7 May regarding the potential information flows between Telecom Wholesale and Telecom Retail which I have passed on to the IOG. The functions of the IOG include the processing of complaints about compliance with the undertakings (clause 79.1 (b)). The Commission therefore considers that the IOG should, in the first instance, investigate the issues you raised in your letter.

Yours sincerely

Dr. Ross Patterson
Telecommunications Commissioner
