Debra Blackett
Assistant General Counsel
Telecom New Zealand Ltd
PO Box 570
Wellington

Dear Debra and Michael

Ihug/CallPlus – Telecom – paragraph 208 of Decision 582 – adjustment to bitstream access price

The Commission has now received signed Deeds of Undertaking as to Confidentiality from Telecom (Debra Blackett) and ihug/CallPlus (Michael Wigley and John de Ridder).

Attached are two versions of a spreadsheet on Telecom's calculation of the adjusted bitstream price as at 22 September 2006 (i.e. a confidential and a non-confidential version). Telecom's Restricted Information is identified by square brackets within the spreadsheets. The Commission requires that all signees of the deed of undertaking hold the Restricted Information subject to the terms of their undertaking and the applicable confidentiality order.

In accordance with the process previously advised by the Commission, the Commission requests that Ihug/CallPlus provides the Commission and Telecom with their comments on Telecom's calculation of the adjusted bitstream price (including the supporting information and the price) by close of business on Monday 16 October 2006.

The Commission also requests that Telecom provides the Commission and ihug/CallPlus with any comments on the Ihug/CallPlus submission by close of business on Friday 20 October 2006.

Yours sincerely

Rachel McLauchlan
Senior Legal Counsel

Encl.
