We invite submissions on:

- our updated views; and
- whether the drafting in the revised draft determinations accurately gives effect to our June draft decisions, subject to the updates and drafting refinements explained in the technical consultation update paper.

Submissions are due by **5pm on 3 November 2016**. We do not intend to invite cross submissions.

Submissions outside the scope of this technical consultation might not be considered in reaching our final decisions.

Material provided outside of this timeframe might not be considered in reaching our final decisions, as it may be difficult for us to give it due consideration. In the past we have received late material and have had to inform the submitter concerned that we have been unable to have regard to it.

Kind regards
