Subject: Re: J&P Turner purchase of T&G Fresh

You don't often get email from

[. Learn why this is important](#)

“Our business has been a customer of Fresh Direct for many years. We deal also with Turners & Growers and MG Marketing.

We support J&P Turner’s application to purchase T&G Fresh. As a grower and supplier, I believe this merger will be beneficial to our industry, an industry, in which many Growers are facing significant challenges in remaining viable.

However, we do have one request. Currently Fresh Direct does not provide its suppliers with daily sales and price reporting. If or when JP Turner (Fresh Direct) merges with T&G Fresh, they should be required to maintain the SAP system currently used by T&G Fresh. This system provides suppliers with daily transparency and visibility of the price their produce has been sold for. This price then has a fixed Commission and levees deducted , to give a net price payable to the Grower.

MG marketing also provides daily reports to its suppliers.

The wholesale market can be volatile and changeable , so suppliers need daily reports for decision making. It would be also be acceptable if Fresh Direct upgraded their current Supplier portal to be daily and mirrored the SAP system.”

Kind regards,
