

Explanatory note for publication of non-material amendments to Electricity Information Disclosure Determination 2 June 2026

2 June 2026

1. We have made a non-material amendment to the *Electricity Distribution Information Disclosure Determination 2012 [2012] NZCC 22*, as previously amended (the **principal determination**).
2. We have replaced one of the schedules in the principal determination with a new version, as explained below.¹

Replacement of Schedule 9b

3. We have replaced Schedule 9b (Asset Age Profile) in the principal determination with a new version.²
4. The change to the schedule template is to correct an error within a formula for conditional formatting (incorrect column reference). Other than this correction, there are no other changes to the requirements under the principal determination.
5. The previous version of the template had the potential to create confusion for readers when interpreting the data contained in the schedule due to the formula error. We consider this change will better promote the purpose of information disclosure under s53A of the Act, as it will improve the ability of interested parties to assess whether the purpose of Part 4 of the Act is being met.

¹ The amendments are specified in the Electricity Distribution Information Disclosure (Non-material) Amendment Determination 2026 [2026] NZCC 21, dated 2 June 2026.

² The new schedule and other documents can be accessed [here](#).
